# User Stories

As a student, I want to get be able to get into the game without much difficultly/interface interruptions so that I can game quickly and easily; saving time

As a user I like the ability to be able to link up with other users to challenge and compete with one another to prove one's gaming abilities

As a beginner user I like there to be an introduction and possibly game tutorial to introduce and teach me how to play the game

As an avid gamer I want the option of being able to compete with an AI of varying difficulties to practice and improve my gaming abilities

As an achievement hunter, I want increasingly difficulty achievements built into game to get a sense of achievements and to brag

As a casual gamer, I would like the option of local offline multiplayer to be able to play the game with my friends locally and have fun
